Door/Frame Colour: **Slate Grey**
Accent Colour: **Irish Oak**

Custom Etch Letters and Numbers

The Cannondoor range of Custom Etch Letters and Numbers is available in a range of 4 standard styles (and 5 typefaces) ranging from traditional to contemporary and make a striking statement whether used in the door glass itself or in the sidelights/toplights.

We offer standard sizes for many of our most popular door configurations and also offer a custom size service for use in Toplights, Sidelights and for other door glass sizes.

Our range of styles have clear numbers on a sandblasted background, but negative versions with sandblasted characters on a clear background are also available.

All our custom etch designs are produced using sandblast techniques and with our computer designed 'resist' cutter, we can ensure perfectly created letters and numbers every time.

Once the design is created, it is then incorporated within a high performance insulated glass unit using warm edge spacer and low E glass. For sidelights and areas where extra security may be required, we also offer the range in our Security+ laminated glass units.

Technical Specifications

Cannondoor Products

Manufactured using grained and smooth impact-resistant GRP SMC skins and available in a wide variety of styles and colours including wood stains. Stiles and Rails are manufactured from a water-resistant pure PVC polymer and reinforced using LVL (laminated veneered lumber) timbers with a minimum density of 570 kg/m³.

The SMC skins and sub frame door assembly are fully bonded using a Urethane Adhesive Resin.

The door is filled with CFC-Free Polyurethane foam, a superb insulation material which vastly reduces the transfer of heat through the door. With a density 44.5 - 45.5 kg/m³ this provides insulation that as part of a doorset assembly achieve a U value as low as 0.8W/m²k

Security

The door slab along with the glazing system are major components of any doorset. The Capstone slab using the SecureDesign board reinforcing and coupled with the Cannondoor glazing cassette systems is a proven combination for achieving a security level to PAS24:2016 the industries enhanced security standard which is a requirement to achieve certification for Secured by Design the police initiative to protect against unlawful entry of a property and Document Q of the Building Regulations.

Door slabs offered by Cannondoor are manufactured as part of the BM Trada Q-Mark scheme for quality, allowing us to have full traceability for all factory processes.

Glazing and Ancillary Options

Frames: Glazing cassettes used to frame our glass are available in four options (door design dependent) and are fully de-glazeable should there be need to change the glass design.

Dentil Shelf (Trafalgar Square): Architecturally-correct to enhance the look of the Craftsman style door.

Manufactured from GRP SMC in a wood grain finish to complement the Craftsman door. Screw-fixed into the SecureDesign board and supplied with matching screw hole covers.

Glass

All the double and triple glazed units used in our doors are manufactured to the highest standard and come with recognised accreditations for performance, strength and thermal efficiency.

All units are made with toughened glass which is up to 5 times stronger than ordinary annealed glass and complies with EN12150, the International standard for safety glass.

For an enhanced security option, glazing options can be supplied with an upgrade where the outer pane of toughened glass is replaced with 6.8mm laminated glass comprising of two sheets of annealed glass bonded together with a vinyl plastic interlayer which eliminates any attempt to break through when under attack.

All sealed units are manufactured to the BS EN1279, a standard which guarantees the quality of components and most importantly the seal, which comes with a manufacturer's 10-year warranty.

	Maximum Width	Minimum Width	Maximum Height	Minimum Height
All door designs with the exception below	904mm	682mm	2013mm	1913mm
Turret Barrage The Bastion Defender The Urban George The Artisan Stanley Volley Blast Bulwark Battery Arsenal Fortress Charge Salvo	904mm	740mm (720mm if using a 35mm backset lock)	2013mm	1913mm
Ordnance	904mm	790mm (770mm if using a 35mm backset lock)	2013mm	1913mm
Garrison The Vanguard	904mm	765mm (745mm if using a 35mm backset lock)	2013mm	1913mm
The Lumina Albert Moderne Alexandra Moderne Victoria	904mm	740mm	2013mm	1913mm
Cobblestone Smooth Bore Smooth Muzzle Lexington	904mm	682mm	2013mm	1913mm
Side Panels	350mm	327mm	2013mm	1913mm

For French Doors, the maximum combined door slab sizes using Winkhaus Fab locking system is 1820mm. Minimum combined slab size 1376mm. Sizes relative to all door slab designs. For Trafalgar doors supplied with a Dentil Shelf, the cylinder position will be no higher than 1350mm from the bottom of the door.

Care and Maintenance

To keep your door in great condition, there is minimal requirement for maintenance. Frequency may depend on surrounding conditions such as a coastal locations or nearby industrial activities.

The following steps should be used as guide:

- Door frames should be washed with warm soapy water, stubborn stains can be removed using specialist PVC-u cleaners and by following the manufacturers' guidelines.
- The door leaf should only be cleaned using warm water or non-aggressive composite door wipes. No solvent-based or abrasive products should be used at any time.
- Glass surfaces should be cleaned with warm soapy water and or a proprietary glass cleaner.
- Hardware can be wiped clean. No harsh chemicals or abrasives should be used as this will damage any protective coating.
- Moving parts should be lubricated with a light engineering oil.
- Maintenance of the door may be required to maintain any guarantees from the installer.

Cannondoor - ProLinea Door Handle

The residential door handle, available in aluminium or zinc finishes, features a 240mm backplate with an integrated spring mechanism, ensuring reliability, corrosion resistance, and compatibility with various locking systems.

- Manufactured from aluminium (painted and anodised - F1 & F3 finishes) or zinc (plated finishes)
- 240mm backplate to suit most locking systems
- PZ 92/62
- Backplate features an integrated spring mechanism to ensure that lever returns consistently to 90°, avoiding any 'handle sag' and for ease of fabrication
- Suitable for use with sprung and unsprung door locks
- Rotate lever 180° to suit both left and right handed doors
- Corrosion resistance - salt spray tested to 240 hours (plated finishes) and 480 hours (powder coated finishes)
- Operational reliability - UKAS tested to 50,000 cycles under load
- Fixing screws supplied

2 Lever Options
Universal lever/lever & lever/pad options with ergonomic finger grips

Stylish Black Handles and Letterboxes: The Perfect Finishing Touch

At Cannondoor, we understand that the small details make a big difference. Our range of black handles and letterboxes offers a sleek, modern aesthetic that complements any door style, adding a touch of sophistication to your home.

Why Choose Black?

- **Timeless Style:** Black hardware is elegant, versatile, and pairs beautifully with a range of materials, from wood to composite.
- **Durable Finish:** Built to last, our black handles and letterboxes are made from high-quality materials designed to withstand the elements while maintaining their bold look.
- **Low Maintenance:** The matte or gloss finish helps resist fingerprints and smudges, ensuring your entrance stays pristine with minimal effort.

Our Range Includes:

- **Ergonomically Designed Handles:** Available in various shapes and sizes, all crafted for comfort and ease of use.
- **Secure Letterboxes:** Stylish and functional, our letterboxes are weatherproof and designed to protect your mail, while seamlessly integrating into your door's design.

Cannondoor - Enhanced Security Door Handles

The Only Sold Secure Silver Accredited Door Handle.

...which means it's the strongest, most secure, BSI Kitemarked, TS007 2 Star Accredited security handle on the market.

The Highest Security.

Cannondoor - Ultion 1-Star PLUS Lock

The Ultion 1-Star PLUS Lock combines advanced security features with stylish design. Engineered by Ultion for durability and resistance to common attack methods, it ensures peace of mind for homeowners. Experience top-tier protection that meets police-approved standards for enhanced safety.

Ultion, the Key to Ultimate Security. Your door may look solid, but without a high-quality cylinder lock, it's vulnerable. Ultion offers cutting-edge security solutions, featuring 11-pin, anti-snap cylinder locks and stylish door furniture, all approved by locksmiths and the police.

ULTION

The **very best** protection for British homes

Cannondoor - Autofire Standard 4 Latch MPL 1045 For Composite Doors

Key Features:

- Four strong latches for superior security & no bow guarantee
- Automatically locks upon closing for effortless operation
- "Secured by Design" certified for added peace of mind
- Durable construction for long-lasting protection

The 1045 Autofire Standard 4 Latch Multi-Point Lock (MPL) is designed for composite doors, providing enhanced security. With a 20mm faceplate, 45mm backset, and PZ centres of 92, it features four individually triggered latches for reliable locking. Each box contains five units, ideal for various applications.

Cannondoor - Ultion Nuki Smart Lock

Introducing the Ultion Smart Lock for British homes, now compliant with British Standards. This award-winning, BSI Kitemark accredited smart lock combines beauty with robust protection and convenience.

The Smart Lock For British Homes. Now to British Standards.

Home security goes beyond just your lock. Our award-winning, BSI Kitemark accredited smart lock is not only beautiful, but engineered to provide robust protection & convenience.

The partnership between Ultion and Nuki creates more than just a smart lock. Ultion's lock and handle bring Nuki's smart technology to UK doors, offering unmatched security for PVC and composite doors.

Auto-unlocks on arrival.

Ultion Nuki unlocks automatically on arrival and locks later, offering hands-free convenience, perfect for busy moments.

Press, twist, and relax.

At the heart of Ultion Nuki is a button for easy lock - unlock, or twist the dial manually. Upgrade with keyfob or keypad.

Effortless control options.

Choose between a keyfob, wireless keypad with fingerprint recognition, or a physical key for your Ultion Nuki. Mix for ultimate convenience.

Multipoint locks just got smarter

The Ultion Bolt features an integrated magnet sensor and space for the Ultion Nuki transmitter, allowing for seamless upgrades. With automatic locking, keyless entry, and electronic guest keys, you can enjoy enhanced convenience with just a simple installation.

Cannondoor - Threshold

The Cannondoor Threshold range offers versatile solutions for various door types and accessibility needs. With a focus on durability and seamless integration, these thresholds ensure both functionality and enhanced performance, making them an ideal choice for any door installation.

In addition to the standard integral frame threshold, several low threshold options are offered, including 15mm and a 54mm low PVC threshold PVCu frame, and mobility door cill alternatives.

Cannondoor - Hinges

Cannondoor hinges are engineered for strength and durability, ensuring smooth door operation and long-lasting performance. Designed for reliability, they provide secure support for doors of various materials, maintaining alignment and functionality even with frequent use. Perfect for residential and commercial installations.

Cannondoor hinges not only ensure smooth door operation but also contribute to the overall security of your door system. With robust construction and precision engineering, our hinges reduce wear and tear on the locking mechanisms, complementing the performance of Cannondoor lever-operated locks and the Ultion Bolt system.

They are ideal for high-traffic areas, delivering both functionality and security for homes and businesses alike.

SFS produce one of the industry's most advanced hinge ranges to suit PVC & composite, timber and aluminium entrance doors and internal doors for both the residential and commercial sectors, as well as an adjustable window installation for thermally insulated wall structures.

Engineers at SFS develop solutions to meet the high expectations of final customers and architects, often bespoke to specific customer needs. All of our hinges are CE certified, meet security standards such as PAS 024 and are accredited by 'Secured by Design' and satisfy the requirements of the EN 1935 testing guidelines.
